ITEM# CPSTWIN

# TWIN PUNCH

## HEAVY DUTY NON BUTYL CLEANER/DEGREASER

### Description:

More effective than butyl based degreasers, TWIN PUNCH is formulated with the finest grade d-Limonene and wetting agents to effectively emulsify grease, grime etc. It is a natural replacement for butyl based products in industrial and institutional heavy duty cleaning. It contains no petroleum solvents and is safe to use through auto-scrubbers, pressure washers and steam cleaners. TWIN PUNCH is biodegradable and it also contains a built-in deodorant and leaves a pleasant scent behind after using.

### Dilution Rates:

**1:1 to 1:5 for Heavy Cleaning (64/20 oz. per gallon).**

**1:10 for General Cleaning (12 oz. per gallon).**

**1:20 for Automatic Scrubbers (6 oz. per gallon).**

**1:30 for Pressure Washers (4 oz. per gallon).**

The Oregon State Regulations require that products used in the state must contain less than or equal to 0.5% phosphorus. TWIN PUNCH contains 0.5% phosphorus, which is within the phosphate regulations of the State of Oregon.

The green movement is a trend in the US, Europe, and Canada toward more "Environmentally Friendly" products. For a product to be considered Eco-Safe, it is expected to contain ingredients that are biodegradable. Biodegradation is defined as: The susceptibility of a substance to decomposition by microorganisms and/or natural environmental factors. Through normal use, TWIN PUNCH is disposed of in the sanitary sewer system via sink and floor drains and thereby treated in a waste water treatment plant. TWIN PUNCH is 98.6% biodegradable by the microorganisms present in a waste water treatment plant within a 20 day period according to the information collected on the ingredients in TWIN PUNCH.

### Specification Data

Color:	Orange
Odor:	Citrus
Specific Gravity @ 75F:	1.02
Density:	8.5 (lbs/gal)
Viscosity:	Thin
pH:	12.5 - 13.5
Flash Point:	N/A
Phosphates:	Yes
Biodegradable:	Yes
