

LONG SHOT™

Concentrated Glass Cleaner

WENCO® LONG SHOT™ is an extremely concentrated glass cleaner. It contains special cleaning agents which allow it to be very effective when diluted as much as 64 parts water with 1 part LONG SHOT™. It will not leave film, wax or residue of any kind when used as directed. It reduces costs and product storage requirements.

DIRECTIONS FOR USE

NOTE: LONG-SHOT™ is highly concentrated and must be properly diluted to work effectively.

RECOMMENDED DILUTIONS

LIGHT DUTY CLEANING

Dilute 2 ounces of LONG-SHOT™ to each gallon of water. Dilute with cold water.

HEAVY DUTY CLEANING

Dilute 3 ounces of LONG-SHOT™ to each gallon of water. Dilute with cold water.

After diluting properly, fill a spray bottle or mix in window bucket and apply to windows or glass. Spread evenly over the window surface.

Do not allow the solution to dry on windows. Never apply to window that is currently in direct contact with sunlight. Dry with cloth or squeegee. Can be applied with window brush or strip washer if desired.
